BUCKHORN NOW SHOWING CLASS WITH RICH ORE

Aggressive Campaign of Development Will Be Waged Upon Promising Property

There is a hum of activity at the Buckhorn property at Stone Cabin, which was recently taken over by the Wilson Divide Mining company. E. P. Sullivan, the live-wire mining man, has returned from the seat of operations, where he spent several days directing the preliminaries that are going forward, and matters are now practically in shape whereby the scope of development will shortly be broadened.

The Buckhorn makes an unusually strong mineral showing, and during the past year it has been receiving well directed attention. Operations have been confined to the 140 level of the shaft workings, and in drifting and crosscutting to the north a number of promising ore veins have been encountered that show high silver values. It is estimated that the dump contains average values of 55 ounces silver a ton, while the higher grade, which is being sorted, will mill better than 200 ounces silver.

SILVER PICK NOW LOOKS PROMISING

There are promising conditions at two places where work is being done in the Silver Pick base on the Red Top at Goldfield. Low-grade ore is exposed in a winze at the face of the north drift on the fourth level, and also in the face of the north drift on the intermediate level. At each of these places the work is being done in the direction of the strike of the ore body mined between the third and intermediate levels and there is considered to be a good chance for opening another shoot in this direction. One hundred tons of low-grade material is being held in the bins until it can be "sweetened" by higher grade ore it is hoped to find in the work to the north on both the intermediate and fourth levels.

Prospecting also is being done to the south, below the intermediate and a crosscut is being continued in the third level, where the foot-wall side of the main drift is being exposed. It is considered improbable that some of this work will not result in another ore body being found in the vein, which has been proved to contain one bonanza shoot.

AJAX PROPERTY IS LIKED GENERALLY

Tonopah Mining company, through a subsidiary, has at last taken over for \$299,000 the old Ajax mine at Cripple Creek, Colo., although detailed terms of the acquisition are not yet available. This property, which has been on the market for some years, is favorably regarded, although ore reserves are now practically depleted. The failure to make a better record for itself is generally attributed to unwise management rather than to dearth of mineral resources. An intensive development campaign must be launched at once to restore the Ajax to the point of sustained production, says Financial Review.

Operation of the Ajax will be carried on by a new subsidiary to be formed, Tonopah-Ajax Mining company. It is not yet known just what will be the equity of "parent" Tonopah Mining company in the new enterprise, although it has only an 83 per cent participation in its first Colorado subsidiary, Tonopah Placers company.

The Ajax property covers 33 acres on Battle mountain, adjoining the Portland and Granite Gold Mines. A three-compartment shaft develops the tract to a depth of 2000 feet, from which there are some 14 miles of underground workings. Gross production to date, in spite of the impracticable metallurgical innovations which have handicapped Ajax operations, is given as \$5,900,000.

PUBLIC SCHOOL TEACHING CORPS FULLY SELECTED

Many New Faces Will Be Seen in Class Rooms of Both High and Grades

Schools will open Sept. 18 and this year will see many changes in the teaching staff, especially of the high school. Miss Helen E. Crickshank, who was in the music department last year, will return for another year.

The following new teachers will be with us for the coming year: Miss Edith S. Harris of Reno, Nev., will have the Spanish and history classes. Miss Harris received her training at the San Jose Normal and her degree from the University of Nevada. She has had teaching experience in the Goldfield and Sparks high schools and the Clark county normal.

Miss Ethel Winger is a graduate of the University of Nevada and comes to us from the Eugene high school at Eugene, Ore. Miss Winger has had experience in the schools of Nevada as well as Oregon and was an honor student while at the university. She will have charge of the English classes in our high school.

Miss Lydia Colyer is a graduate of the University of Nevada and comes to us from the Winnemucca high school. She has had experience in several schools of the state and will have classes in Latin and history.

Miss Ina M. Hamlin of Urbana, Ill., is a graduate of the University of Illinois and has had special training in commercial work at other schools. Miss Hamlin will have the shorthand and typing classes. Her teaching experience has been confined to her home state, but a desire to see the west brought her to Tonopah.

Miss Ruth Anderson of Oakes, N. D., comes to us from the high school at Thompson Falls, Mont. Miss Anderson is a graduate of the State Teachers' college at Valley City, N. D., and has had special business training in Minneapolis college, Minneapolis, Minn. She will have classes in bookkeeping, commercial arithmetic and related subjects.

Nathaniel O. Schneider comes to us from Minneapolis, Minn., where he has been assistant physical director of the Minneapolis Athletic club. Mr. Schneider is a graduate of the Superior Normal school, Superior, Wis., and holds a bachelor of science degree from the University of Minnesota. He has had teaching experience in the Morgan Park Junior High school and the city schools of Duluth, Minn. Mrs. Schneider also wanted to see the west and they are comfortably located at 115 University street.

H. Dwight Norris holds a bachelor of science degree from Washington college, Maryland, and will have charge of the science classes in the high school. He has had teaching experience in Ohio and California.

Erich A. Ahrens of Tabor, Idaho, holds both the bachelor of arts and the master of arts degrees from the University of Rochester, New York. Mr. Ahrens has had teaching experience in the Mechanics Institute of Rochester and the Rochester City Normal school. He will have charge of the mathematics courses in the high school.

These high school teachers have been selected with a view of meeting the high educational standards which for years have been demanded by the Tonopah schools. Each teacher has had special training and experience in the subjects he will teach in our schools. Several have been educated and had their teaching experience in such states as Ohio, New York, Oregon, California, Minnesota, Montana and Illinois. Our Nevada teachers will represent the best ideals of our home state and the others will bring their share from the states represented. Tonopah high school will maintain its high ranking among the schools of the state.

HEARING TO REDUCE RATES

CHICAGO, Sept. 13.—An important hearing on the Southern Pacific's petition to reduce transcontinental rates on 200 standard commodities, equalizing the water rate, began today before the chief examiner of the interstate commission. They claim reductions are necessary to compete with the Panama canal.

TONOPAH EXTENSION BOSS IS NOW HEARD

John G. Kitchin of the Tonopah Extension Mining company was in Reno for a day or two in attendance on the Mine Operators' association in its connection with the work of the United States bureau of mines there. In speaking of the work of the Tonopah Extension to the Reno Journal he said: "We are expending about \$250,000 in machinery and new work in the mine. We propose to go to the 2225-foot level. The machinery we are installing will permit of work much deeper than that, but that depth is all we are figuring on at present. One item of our expense is \$75,000 for pumps that are being installed to drain the lower levels. Meantime the mine is making a great showing on the upper levels—that is, the levels not hampered by presence of water."

As an example of the amount of ore showing in the Tonopah Extension, there is one ore shoot extending for a distance of 550 feet. The ore on the 1850 level is the same as on the 1880-foot level. One stop extends 80 feet and another 60 feet.

BIOLOGICAL SURVEY GETS GOOD RESULTS

The United States biological survey and state rabies commission, co-operating in the Nevada district, reports the following results for the month of August:

"During the month 32 hunters worked a total of 888 days, taking 776 true predatory animals—41 bobcats and 735 coyotes. There were also taken 2 raccoons. In addition to the above animals there were destroyed 3 unborn bobcat kits, making a total of 779 predatory animals destroyed."

"August has been a good month for trapping and the majority of our hunters have made fine catches. Mr. J. W. Meece is again in the lead, taking 56 true predatory animals, and the 'old war horse,' Mr. E. C. Rucker, took 53 and F. McTimmonds 51. Others who took the average of 27 or better for the month are: August Strashley, Lander county, 44; H. J. Ivester, Eureka county, 38; O. C. Wood, Washoe county, 37; R. J. Casey, Churchill county, 34; Thomas Kennedy, Lincoln county, 32; John Penola, Nye county, 31; J. F. Vogel, Pershing county, 30; R. B. Grandy, Elko county, 27, and O. A. Tolman, Elko county, 27."

PERSONAL

A. T. BAKER, who is interested in Argentine, is a visitor to Tonopah. BEN CHAMBERT, prominent resident of Beatty, is a visitor to Tonopah.

DAN RENEAR, inspector of state police, accompanied by a number of officers, passed through Goldfield this afternoon en route to Las Vegas.

H. J. M'SHERRY, who is here from Reno, is at Gibraltar today looking over the funeral find on the New Gibraltar property.

M. M. GREEN, president of the Belledalen Merger Mining company, who has been in Reno for the past several weeks, arrived home this morning.

M. H. LIBBY and S. D. Bryan, New York brokers, who have been here examining the New Gibraltar Silver Mining company's property, left this morning for their home in the east. BEN CHAMBERS, superintendent of the Cytic mine at Death valley, is a visitor to Tonopah. Mr. Chambers reports that operations are progressing nicely and he is here to purchase supplies.

ZER PETERS, well-known mining man and for a long time connected with the mines at Virginia City, is a visitor to Tonopah. Mr. Peters is today at Gibraltar looking over the great mineral find recently made on the New Gibraltar property.

O. E. NORDAHL, successful lawyer, returned this morning from Montezuma, where he took his son, Erling, who has enrolled as a student at a private school. Erling is an unusually bright young fellow and promises to make a mark in educational lines.

ALBERT KURRISS, well-known mining man, who has been in Boston the last three months, arrived home this morning. Mr. Kurriks states that the people of the east are turning their attention to mining and that the prospects are bright for a revival of the industry at an early date.

TONOPAH EXTENSION BOSS IS NOW HEARD

AMUSEMENTS

JOHN SMITH HAS TROUBLE AGAIN

After months of imprisonment to see the sunshine again, to breathe God's fresh air, to hear the song of the robin, to smell the perfume of flowers. What joy can be compared to this? After a long imprisonment to be free, free as the stars and the clouds and the rain "John Smith," which will be the feature attraction at the Butler today, with Eugene O'Brien in the leading role, is a story of a man who served a prison sentence because he refused to give away someone very dear to him. A prisoner at Sing Sing, he was sent out on probation and secured a responsible job in the city.

But when someone stole the proceeds of the charity bazaar and murdered the chauffeur, things looked bad for John Smith. The love he bore for Mary made him keep his past a secret. He was arrested and made to stand trial. But meanwhile the real criminal was apprehended by a clever detective and John Smith was freed. The picture ends with a bright future looming ahead of John Smith and Mary. "His Wife's Son," a (two-act) comedy, closes today's program.

Tomorrow: Pearl White, in "Without Fear" and the latest "Pathe News."

Coming: Gloria Swanson, in "Beyond the Rocks."

FIRE LADDIES CALLED

The fire department responded to an alarm at 2:30 o'clock this morning from California street, a woodshed back of the home of Edward Johnson having mysteriously caught fire. Mr. Johnson is confined to the hospital and the house was occupied by an unknown person. A Mrs. Peterson turned in the alarm. The only damage that resulted was to the woodshed, the house not being touched by the fire.

LENINE'S BIRTHPLACE TO BE PRESERVED

GAZAN, Sept. 13.—A little hut in the village of Simbirsk, on the Volga river, where Premier Lenine was born 33 years ago, is to be restored and preserved for visitors. A government commission is to have charge of the work.
